

**LADWP
FiT 50 Workshop Presentation
11/12/14**

Hecate: /hek uh tee/ - The Greek goddess of the solar system, sub-surface earth and the oceans. She is represented as a three-faceted goddess that evokes the crossroads. Hecate Energy's logo captures this essence both in design and color, and reflects our mission of developing power generation resources at the crossroads of traditional natural gas power plants, proven solar and wind technology, and emerging energy storage solutions.

Hecate Energy: Background

- ☛ Hecate Energy's management team has worked together for more than 15 years**
- ☛ 100,000 MW of energy projects - developed, valued, acquired, repowered, financed, and/or operated**
- ☛ The management team of Hecate Energy grew its previous solar power plant development company to over 700 MW from 2009–2012, making it the fourth-largest Solar PV power plant developer in the United States based on MW under contract**
- ☛ Established Hecate July, 2012**

Hecate Energy: Qualifications & Overview

2,400 MW + of Energy Projects in development across 3 continents:

☀️ Solar

☀️ Wind

🔥 Natural Gas

🔋 Energy Storage

Solar Project Pipeline

224 Megawatts

Recently Delivered Projects

93 Megawatts

Hecate Energy: Solar Project Pipeline (Selected Projects)

LADWP

BEACON

Ground Mount: **166 MW**
Rooftop: **28 MW**

Georgia Power

OLD MIDVILLE

Ground Mount: **20 MW**

National Grid, RI

FORBES 1-2

Ground Mount: **6 MW**

Hecate Energy: Depth of Power Plant Financing Experience

Hecate Leadership have financed **\$Billions** of projects

- ✓ Hundreds of MWs of solar
- ✓ Hundreds of MWs of wind
- ✓ Thousands of MWs of natural gas
- ✓ Financing portfolios including: coal, oil and hydro

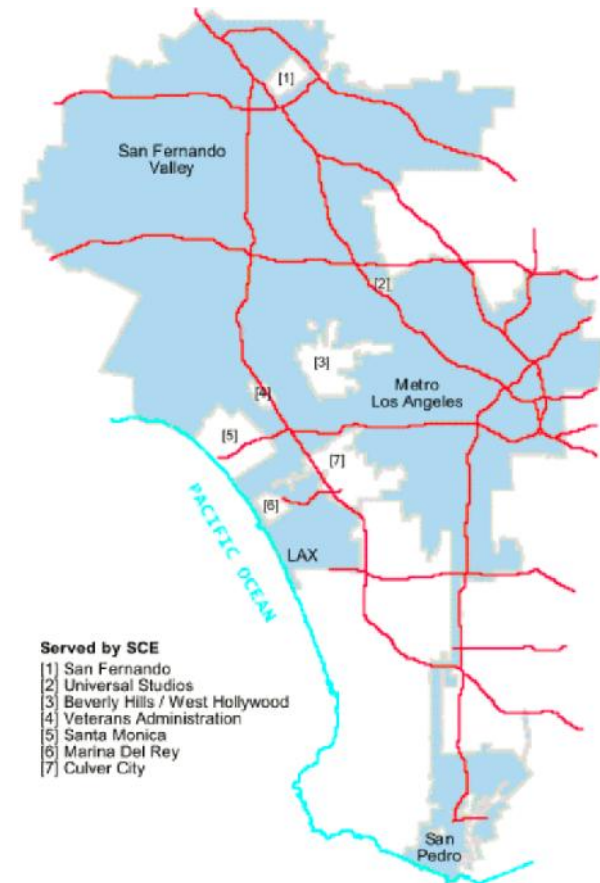

28 MW Feed-In Tariff Allocation

Working with DWP to build solar in LA

110,000 SQFT needed to site
1 MW of solar PV

3,000,000+ SQFT of Rooftops
and other sites to meet our goal

50,000+ SQFT is the ideal
rooftop sizing

Hecate Energy: FiT 50 Partnership Opportunity

Standard Offer

Rooftop Lease

- 20-Year Term
- Enhanced Roof Warranty
- Regular Maintenance Checks
- Zero Cost to Property Owner
- Annual Payments Based on System Size

Creative Offers

Parking Shade Canopies

NEM + Solar Lease

Battery Storage

Hecate Energy: Next Steps

Moving Forward (4-6 months Evaluation to Operation)

- ✓ **Evaluate Site**
- ✓ **Discuss Terms and Conditions**
- ✓ **Begin Interconnection and Permitting**
- ✓ **Design and develops the system**
Hecate brings local labor, construction and permitting expertise
- ✓ **Hecate Energy also owns and maintains the system**
